

CARTAGE CONTRACTORS SAFETY RULES SMYTHES QUARRY

The following rules have been developed for all cartage contractors entering Smythes Quarry. Failure to observe these rules may cause harm to yourself or others on site.

- All trucks and visitors must report to the Weighbridge when entering and exiting the Quarry
- All road users must exercise extreme caution when entering the Quarry as there may be pedestrians crossing from the car park area to the office walkway.
- Minimum PPE required on site (if you are exiting your vehicle) high visibility vest, safety footwear, hard hat, and safety glasses.
- You shall observe all road signs within the Quarry i.e. **Give Way & Stop** signs.
- The speed limit on all Quarry access roads shall **not exceed 40 km/hr**.
- New Zealand Road Rules apply within the Quarry. Use caution when interacting with heavy machinery.
- Drivers and their passengers must always remain in their vehicles while being loaded.
- There is space in the car park area to the left when you exit the Weighbridge for covering loads and checking tailgates/drawbars. **Do not** conduct these tasks in the Quarry Operations areas.
- All vehicles exiting the Quarry **must** exit through the Weighbridge and Wheel wash, give way at the Quarry gate and exercise extreme caution entering State Highway 2.
- The speed limit on State Highway 2 is 90 km/hr.
- All incidents, accidents or near-misses shall be **reported immediately** to any Kaipara personnel or to the Weighbridge. You are not permitted to leave site after an incident without the Managers approval.
- All hazards or safety defects shall be **reported immediately** to any Kaipara personnel or to the Weighbridge.

Any breach of these rules may result in your company being denied access to Smythes Quarry.

Willis Paddon
Smythes Quarry Manager

Darryn Guise
Smythes Quarry Supervisor
